Executive Summary Sevier County Housing Study

То:	Mr. Allen Newton
From:	Nelson C. Pratt, MAI
Date:	October 6, 2021
Re:	Housing Market Analysis – Update Sevier County Tennessee

Dear Mr. Newton,

In accordance with your request, I have compiled research for an update to the previous Housing Study for Sevier County. Due to the current strength of the market in terms of rent growth, occupancy, absorption, new attractions, job growth and tourism I have assembled data relative to the local economic trends, analyzed pertinent demographics, and surveyed the competitive multifamily market to include information on rents, occupancies, and absorption activity. The effective date of this analysis is July 9, 2021, corresponding to communication with the comparables and planning departments.

It is my understanding that the intended use of this housing study is to aid the client with planning and development in Sevier County. The objective of this report is to gather, analyze, and present as many market components as reasonably possible. The conclusions contained in this report are based upon the best judgments of the analyst; I make no guarantees or assurances that the projections or conclusions will be realized as stated. It is my intent to provide my best effort in data collection and to express opinions relative to conclusions based on analysis of the data herein.

There appears to be additional demand for new units in this market. Vacancy rates are very low and rent growth is strong in the market. There is believed to be demand for both conventional and affordable housing in the market. This is due to a combination of the increased labor market, net migration to the area, and constriction on the single-family market. The market still reflects a vacancy rate at nearly 1% with strong absorption rates of the newest assets.

I appreciate this opportunity to be of service. If additional information or explanation is necessary, please contact me. I look forward to the opportunity of continuing to serve your real estate consulting needs in the future.

Respectfully submitted,

Nelson C. Pratt, MAI Tennessee Certified General Appraiser CG-2754

EXECUTIVE SUMMARY

Client	Sevier County Economic Development
Location	Sevier County, TN
Market Areas:	City of Sevierville, Gatlinburg, Pigeon Forge and Sevier County
Job Growth:	Rapidly Increasing
Population Growth:	Historically strong with recent influx
Unemployment Rates:	<u>June 2021:</u> Sevier County: 4.4% Tennessee: 5.6% US: 6.1%
Median Household Income:	Sevier County: \$53,608 (above average for region)
Median Age:	Sevier County: 43.6
Demand:	Historically high due to population/household growth and income levels. Based on vacancy rates, there appears to be pent-up demand present.
Supply:	Increasing in reaction to new demand
Target Population:	Workforce, affordable and market rate housing
Surveyed Occupancy Rates:	LIHTC: 98.6%
	Market Rate: 98.9%
Rent Growth:	Historically strong and currently increasing
Summary:	 The industries within the County are primarily within the accommodation and entertainment sectors, and even with the pandemic in 2020, the local economy has recovered quickly. Sevier County's in place employment is currently higher than pre-COVID-19 numbers. Income and population levels continue to rise. There is an increase in multifamily permits being issued. Occupancy and absorptions rates are very strong in the market. As of 2018, 46.2% of employed persons in Sevier County commute in from surrounding areas due to the lack of new, quality, affordable housing options within the county. There appears to be demand for J-1 housing in the area due to the unfilled jobs reported by major local employers. While there are J-1 units in planning and under construction, the market is simultaneously seeing former J-1 housing units being converted to short term rentals. The single family market is strong with significant price increases coupled with reduced average days on market. There are a significant number of jobs planned for the next several years, which will require additional housing options. For the purposes of the update, we have focused on the newer, professionally managed assets in the market as they would be the most competitive with a potential development. The averages below are a combination of new product and increases in rents from existing deals that were present in the 2017 study. 2017 Average rent of surveyed comparables Market rate: \$630; LIHTC: \$531 2021 Average rent of surveyed comparables Market rate: \$1,076; LIHTC: \$627

SWOT ANALYSIS

Strengths

- Occupancy rates for conventional and affordable multifamily properties surveyed are currently very high at 98.9% and 98.6%, respectively.
- Rent in the affordable and conventional sectors is increasing while vacancy rates have remained very low.
- Job growth in the Sevier County market has been strong. Employment levels in surrounding markets have also increased, which will lead to additional residents in the market.
- As documented in the report, the overall market is performing historically well.

Weakness

- Land cost in Sevierville, Pigeon Forge and Gatlinburg can be prohibitive to development.
- Availability of housing and housing affordability lead to unfilled positions.

Opportunities

- J-1 Student employees are in need according to major employers.
- Market research demonstrates both pent-up and future demand for a variety of housing needs ranging from affordable to conventional housing.
- A significant portion of employees commute in from other counties. If new, quality, affordable housing became available in Sevier County, it is likely that commuters would prefer to reside in Sevier County. There was a 2.3% increase in Sevier County employees who commute in from surrounding counties form 2014-2018.
- There are numerous planned developments in the area that will require additional housing of employees.
- In-migration: This could be perceived as both an opportunity and/or a threat. It is an opportunity to capture more residents and build more units. It is a potential threat to the local housing issue as the migration is putting pressure on pricing and availability for local residents.

Threats

- Pressure on schools or other services due to the high levels of in migration.
- More affordable product being offered in surrounding markets.
- Sevier County's economy is driven by tourism. There is a risk of adverse effects on travel due to the unknown outcome of the COVID-19 pandemic or other economic threats.

Supply Analysis of the Low Income Housing Tax Credit (LIHTC) Multifamily Market

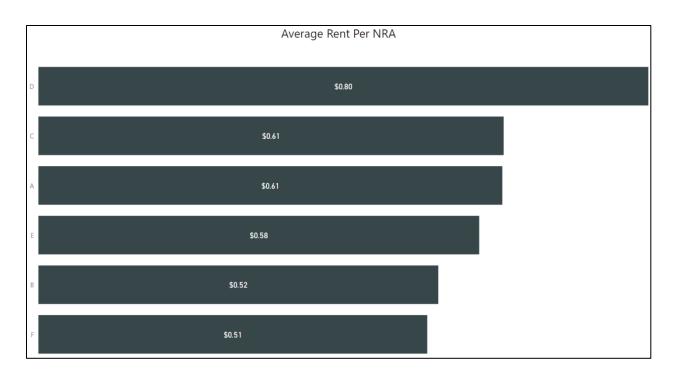

The Sevier County LIHTC analysis includes the following properties that responded to our updated survey. The survey consists of 382 units that responded to our survey is very strong with an aggregate occupancy rate of 98.67%.

Stable Occupancy Review							
Comparable	Units	City	State	Date Surveyed	Original Year Built	Occupancy Rate	
F	96	Sevierville	Tennessee	9/8/2021	2020	100.00%	
E	88	Sevierville	Tennessee	7/29/2021	2013	92.00%	
С	80	Seymour	Tennessee	8/11/2021	2020	100.00%	
А	54	Sevierville	Tennessee	8/13/2021	2012	100.00%	
В	48	Sevierville	Tennessee	8/11/2021	2010	100.00%	
D	16	Gatlinburg	Tennessee	7/29/2021	2021	100.00%	

- The average year built for affordable product in the market is 2016.
- Occupancy ranges from 92% to 100%. Please note that the property with 92% occupancy as of 7/29/21 was occupied at 90% when surveyed 10/30/20 which indicates property and/or management issues. This occupancy is not consistent with the market and should be considered an outlier in the dataset.
- Overall physical occupancy is extremely strong at 98.67%.
- The mean and median rents are \$625 and \$627, respectively.
- The rent per NRA ranges from \$0.51 to \$.80.

Supply Analysis of the Conventional Multifamily Market

The survey of conventional assets in the Sevier County market includes following properties that responded to our survey. The survey consists of 1,890 units that responded to our survey is very strong with an aggregate occupancy rate of 98.96%. The focus of this study was on larger and/or new complexes in the market that are professionally managed.

	Stable Occupancy Review							
Comparable	Units	City	State	Date Surveyed	Original Year Built	Occupancy Rate

В	75	Sevierville	Tennessee	8/13/2021	2005	695	\$897	\$1.31
I.	176	Sevierville	Tennessee	7/29/2021	1997	998	\$838	\$0.85
А	16	Sevierville	Tennessee	8/13/2021	2001	800	\$731	\$0.95
К	10	Sevierville	Tennessee	8/11/2021	2003	900	\$700	\$0.78
L	128	Sevierville	Tennessee	8/11/2021	1985	850	\$675	\$0.79

- The mean and median rents are \$1,060 and \$1,076, respectively.
- The mean rent per square foot is \$1.10.

Absorption

Summary of Recent Absorption Rates							
Identification	City	State	Status	Year Built	No. of Units	Units Per Month	
D	Kodak	TN	Stabilized	2020	192	22.8	
F	Pigeon Forge	TN	Stabilized	2018	173	24.7	
G	Kodak	TN	Stabilized	2020	268	26.8	
Mean Median				2019 2020	211 192	24.8 24.7	

- Absorption of the newest conventional assets in the market has been strong historically.
- Mean and median absorption rates of the surveyed comparables are 24.8 and 24.7 units per month which is very strong and indicate there is pent up demand.

Origin of Residents

Per the client's request, we surveyed the local market to see how many of their current tenants are from Sevier County or other markets. A very high percentage of the current tenants were not Sevier County residents as shown below.

	Migration % of non Sevier	Date of Phone	
Comparable	County residents	Survey	Notes from Survey
A			Unable to confirm
В			Unable to confirm
С	50%	9/28/2021	Residents coming from "all over"
D	75%	9/27/2021	Various locations, but three-fourths from other markets
E	60%	9/28/2021	Noted there were a lot from Michagan and California
F			Unable to confirm
G	50%	9/28/2021	FL, CA, NY, NJ, SD, ND (South Dakota, pipeline issues- job loss, home values plummeted)
н	40%	9/27/2021	Residents coming from "all over"
I	50%	9/28/2021	California, New York, New Jersey
J	60%	9/28/2021	±60% total. Of the 49 2 BR units: 8 local, 41 were not local so closer to 84% on 2BR's
К	60%	9/28/2021	±60% total. For the 32 2BRs, 12 were not local or 38%
L			Unable to confirm
Mean	56%		
Median	55%		

- Eight complexes responded to our migration survey.
- The percentage of non-Sevier county residents ranges from 40% to 75%.
- The mean and median indication of non-Sevier county residents in the surveyed complexes is 56% and 55%, respectively.
- Migration influx of 50% (or higher) compounds the pressure to the local housing supply.

Pipeline Data – New Supply

Below is a list of pipeline activity that we collected from the local planning departments. Given the conditions of this market, the list is fluid and will change over the coming months/years.

Proposed Supply Pipeline							
In Lease-up (not stabilized)	General Location	Area	Туре	Units Remaining			
				0			
		Subtotal of Re	maining Units in Leaseup	0

9	City of Sevierville	520				
10	Ole Smoky Distillery	500				
Sour	ce: East Tennessee Economic Development Age	ency 2021				

As was the case throughout the Country in 2020, total spending declined as shown in the chart below. However, this market has rebounded in 2021 with early indications that spending is back on pace with numbers experienced prior to COVID-19 (2021 data not yet available). It is pertinent to note that the in-place employment in the market is higher than it was in 2019 and employers are noting there are a large number of unfilled positions in the market.

	2020	2019	% CHANGE

Source: USTA, Tourism Economics. US Census Bureau. County Snapshots by TN Department of Tourist Development, 8/24/21. Values represent the direct impact of spending, labor income, employment, and taxes for both domestic and international travel. In the transition to Tourism Economics, all counties have experienced an adjustment in overall impact and/or ranking. This report should not be compared with previously published documents due to the changes in vendor and model.

IMPACT PER DAY

On an average day in 2020, visitor spending in Sevier County generated:

\$6,508,836 in daily expenditures \$2,060,893 in daily labor income \$366,475 in daily state taxes \$239,484 in daily local taxes

IMPACT PER HOUSEHOLD

As a result of taxes generated by tourist activity in Sevier county, each household pays:

\$5,960 less in state and local taxes \$3,605 less in state taxes \$2,356 less in local taxes

IN OTHER WORDS...

If it were not for state and local taxes generated by tourism, each Sevier County household would pay \$5,960 more in state and local taxes.

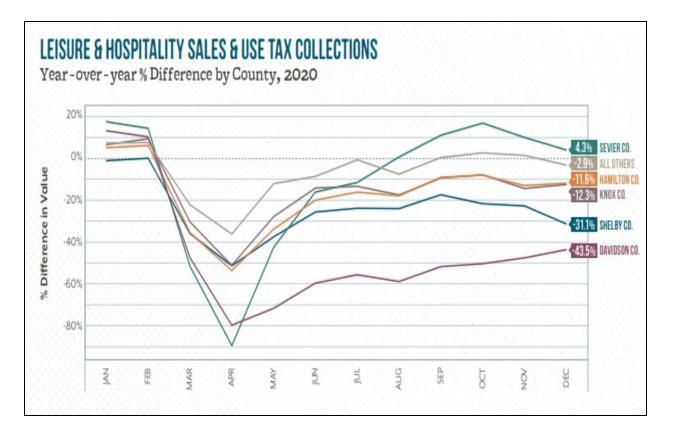

RANKING

In 2020, Sevier County ranked **3** of 95 counties in visitor spending,

compared to 3 in 2019.

Unfilled Positions

According to the State's Division of Workforce Services, "As of Monday September 27, 2021, JOBS4TN.GOV displayed 136 job postings for 389 open & available positions from 61 employers for Sevier County. The data reflects internal job orders directly entered into the system by employers and TN Department of Labor staff. These numbers do not reflect external job postings imported from outside sources as many of those records would be duplicates."

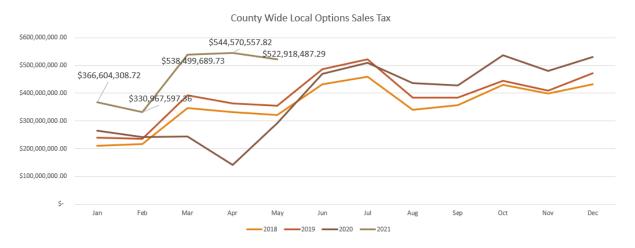

Per the information provided by a survey conducted by Sevier County, this number is much higher.

Sales Tax Comparison

Per the information provided by Sevier County, the County-wide sales tax is higher year-to-date than the preceding three years.

Lodging Rates and Occupancy

As shown below, the occupancy and ADR of the lodging market is higher in 2021.

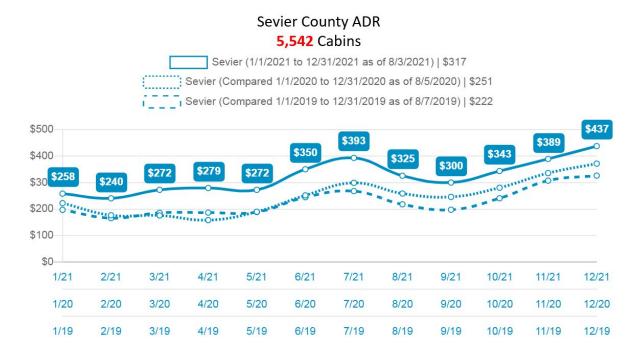

SEVIER COUNTY HOTEL LODGING ADR & OCCUPANCY RATES YTD - MAY 2021

Cabin Rental Market

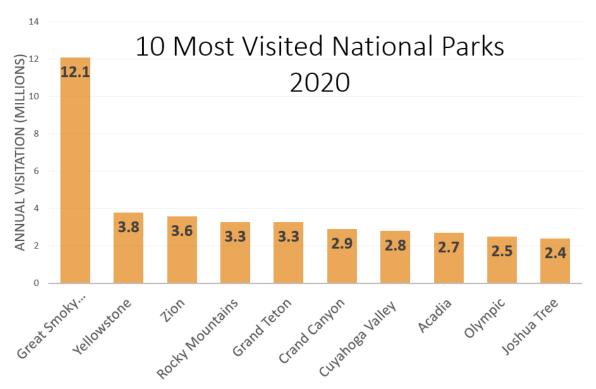

The following data was provided by the Sevier County Economic Development office. The cabin rental market has increased the average daily rental rates over the past three years. Additionally, pricing for these cabins has increased significantly over the past two years, which has caused higher levels of outside investment.

Visitors to the National Park

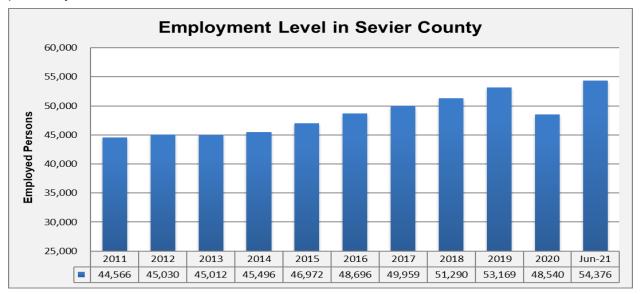

As shown in the chart below, the Smoky Mountains continues to be the most visited park by a significant amount.

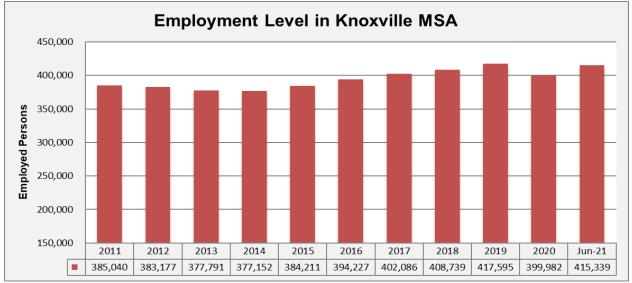

Employment

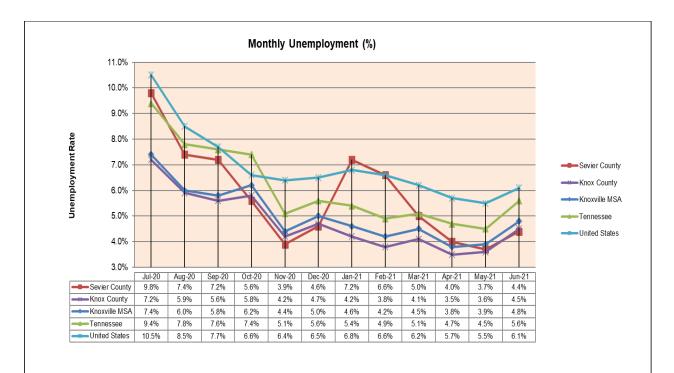

Employment in Sevier County was 48,540 in 2020 and 54,376 as of June 2021. The MSA has experienced similar growth. The employment level in 2020 for the MSA was 399,982, and the level for June 2021 was 415,339. Please see the graph below for employment numbers for the past ten years.

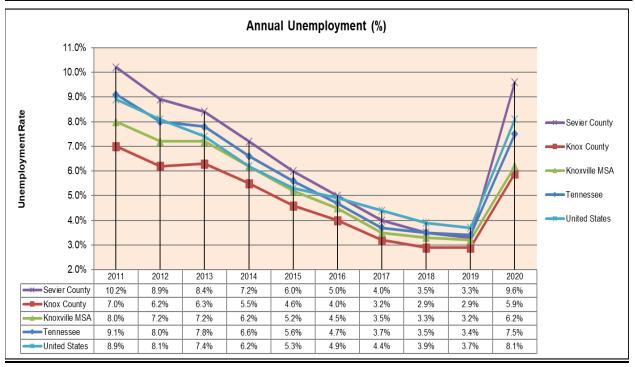

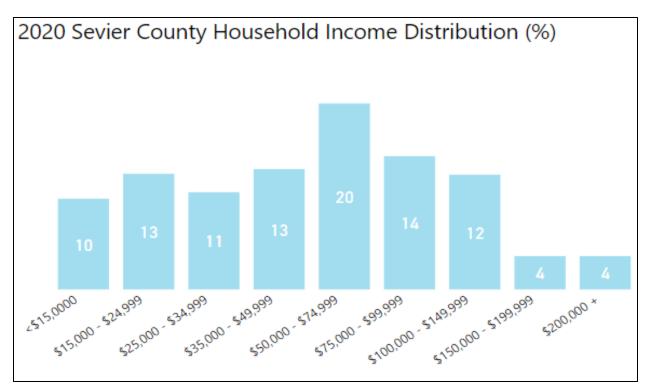

Over the past twelve months, Sevier County has seen a decrease from 9.8% to 4.4%. Knox County and the Knoxville MSA have followed similar trends. The rise in January of 2021 in unemployment in Sevier County is due to the seasonality of tourism within Sevierville, Pigeon Forge, and Gatlinburg. This is a trend that occurs every year. Currently Sevier County is at 4.4%, Knox County at 4.5%, the MSA at 4.8%, the state at 5.6%, and the nation at 6.1%.

Population

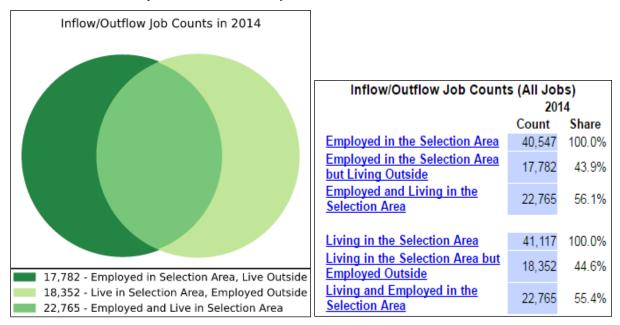

Sevier County population grew at a rate of 0.77% from 2010-2021, Knoxville MSA experienced 0.96% population growth, and the state grew at 1.13% for the same time period. Sevier County's population is projected to increase 0.64% between 2021-2026.

Population Growth								
					Annual % Change	Annual % Change	Annual % Change	Gross % Change
Area	2000	2010	2021	Proj. 2026	2000-2010	2010-2021	2021-2026	2021-2026
Sevier County	71,170	89,889	96,358	99,471	2.34%	0.77%	0.64%	3.13%
Knoxville MSA	727,593	814,914	888,103	922,059	1.13%	0.96%	0.75%	3.68%
Tennessee	5,689,283	6,346,105	7,025,037	7,343,345	1.09%	1.13%	0.89%	4.33%

Commuting Patterns

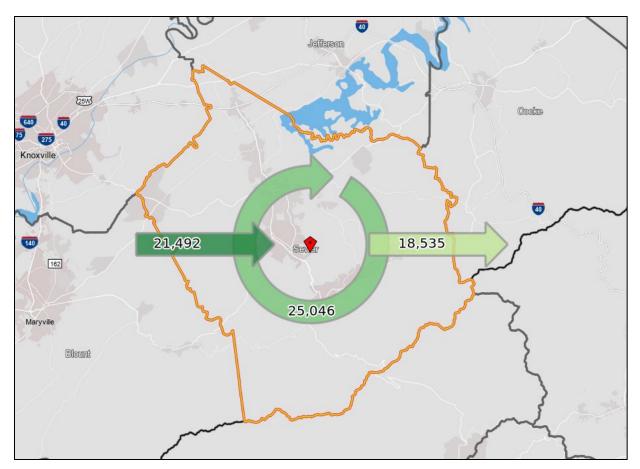

From 2014-2018, Sevier County experienced an increase of 2.3% in employees working in Sevier County but living outside the county. In 2014, the number of commuters working in the County while living in an outside area was 17,782, which is 43.9% of the employed population. A majority of those living in the County are also employed there (55.4%). The following chart illustrates the inflow and outflow of jobs in Sevier County.

According to the U.S. Census in 2018, 53.8% of Sevier County residents commuted within their home county for employment, while 42.5% commute outside the county for employment. 46.2% of employed persons in Sevier County commute in from surrounding areas. See the charts below:

Inflow/Outflow Job Counts in 2018			
	Inflow/Outflow Job Cou	nts (All J 20	
		Count	Share
	Employed in the Selection Area	46,538	100.0%
	Employed in the Selection Area but Living Outside	21,492	46.2%

Tourism

With more than 11 million visitors annually, Sevier County offers a variety of recreation, entertainment, dining, and shopping opportunities. The 800 miles of hiking trails, horseback riding, whitewater rafting, backcountry camping, and trout fishing in streams in the Great Smoky Mountains National Park provide opportunities for outdoor recreation. From Gatlinburg, the popular mountain resort with an internationally recognized arts and craft colony, to Pigeon Forge, with over 40 major attractions including Dollywood and Splash Country to the relaxed family atmosphere of Sevierville, Sevier County, TN, the gateway to the Great Smoky Mountains National Park, is one of the fasted growing counties in the state.

According to the "2019 Economic Impact of Travel on Tennessee Counties" report Sevier County:

- Generated \$2.624 billion in direct tourism expenditures
- Generated 25,838 jobs
- Produced \$672.02 million in payroll
- Created \$75.24 million in local tax revenue

J-1 Student Data

Under Construction			Total Beds Under Constr.
Dolywood	Dolywood Parks Blvd	J-1	756
Wilderness	Wilderness Drive	J-1	500
		Subtotal of Beds Under Construction	1,256

- Currently there are 1,256 J-1 housing units under construction. Employers of major Sevier County attractions report unfilled positions over 1,500 for student employees. Positions cannot be filled until there is guaranteed housing for the J-1 student employee. Therefore, there is an immediate need for 375 units containing 4 beds per unit.
- A former J-1 housing development will be converting to an Airbnb style resort resulting in the loss of 300-400 J-1 beds.

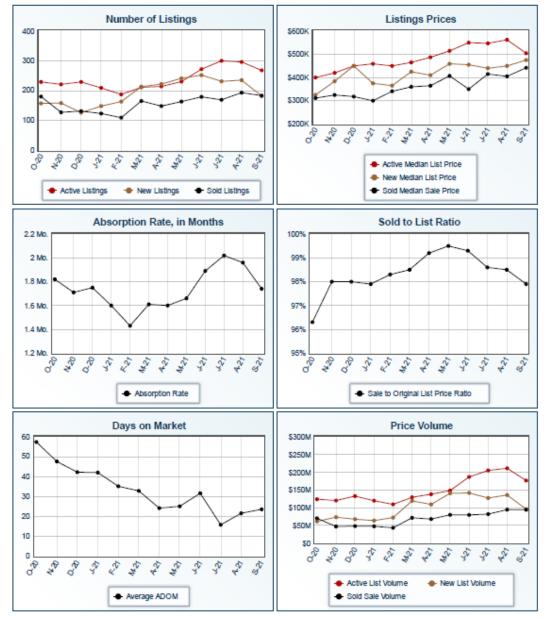

Single Family Statistics

Per the client's request, we have taken a look at some statistics from the single family market. The data herein was taken from the Knoxville MLS. As such, it does not include all of the sales activity in the market, but the trends are distinct.

As is the case in many markets, the single family sector is very tight. In migration of new residents has added pressure to the market. Over the past 12 months, there has been a significant increase in pricing. Coupled with a reduction in average days on market (DOM), it is difficult to find a home.

Market Summary

Sevier County - 27 Single Family, September 2021

Below is a summary of the statistics for the month of September and the preceding 12 months.

- The average list price and sale price has increased significantly.
- The median DOM has decreased dramatically as well.
- These are signs of a strong single family market.

Summary Statistics						
	Sep-21	Sep-20	% Chg	2021 YTD	2020 YTD	% Chg
